

Seasonal Water Disconnect Form

City maintenance and assessment services are based on the number of meters in the City of Valley City. Therefore, each property with a water meter, regardless of water turn off is required to continue payment of the following charges:

Electric	Base + Consumption
Utility R&R	\$ 9.50
Storm Sewer	\$ 2.50
Water Surcharge (if applicable)	\$9.10

By signing below, I am aware that the property's water will be shut off and I will be responsible for the above monthly charges. I am also aware that I will be charged \$40 to shut my water off but will not be charged to turn water services back on. In order to get my services turned back on someone must be at the property.

***If you have a boiler heat system please let us know.**
